### **REMARKS**

Prior to the amendment, claims 1-16 were pending. Following this amendment claims 1-13 are pending. Claims 14-16 are canceled without prejudice or disclaimer as drawn to non-elected invention. Applicants submit that no new matter is introduced by way of this amendment. For the Examiner's convenience, a copy of the currently pending claims is appended hereto as Appendix A. A version showing changes also is appended hereto.

It is noted that the Examiner requests that Applicants identify one combination of capture probes chosen from the group consisting of the sequences set forth in Table 1, Table 2, Table 3 and Table 4. In response, Applicants elect sequences identified by SEQ ID NOs: 18-40, 42-54, 56-113 and 117-122. This list includes 100 sequences so it is believed that all of claims 1-13 should be considered elected claims. The sequences are found at least in Table 3 and in the Sequence Listing.
